Exam : **000-112**

Title : **IBM Storage Sales 5000 V1**

Version : **Demo**

1. A customer has a requirement for 8 TB of data to be stored on tape. The customer wants the most cost-effective automated LTO4 solution.

Which solution meets the customer's requirements?

A.TS3100

B.TS3200

C.TS3310

D.TS2340

Answer: A

2. What is the recommended resource to be used to download updated firmware for the DS4700 disk system running version 10.10?

A.LSI Support and Downloads Web site

B.IBM Software and Device Drivers Web site

C.IBM Express Seller Toolkit

D.IBM DS4000 Storage Manager

Answer: D

3. Which application would most likely benefit from larger segment size?

A.OLTP database

B.file system

C.Web-based CRM

D.streaming video

Answer: D

4. The client is concerned that the IBM System Storage SAN Volume Controller is inappropriate for mission-critical UNIX applications due to its use of Intel-based x86 processors.

What is the recommended response to this objection?

A.The SVC uses SDRAM cache memory.

B.The SVC uses Linux instead of the Windows operating system.

C.The SVC supports Fibre Channel Protocol.

D.The SVC is running at "five nines" (99.999%) availability in the field.

Answer: D

5. A customer is concerned that some of the hardware and software required to complete the installation of a new solution is missing.

Other than disk storage, what are the minimum requirements for getting a SAN Volume Controller installed and operational?

A.one pair of SAN Volume Controller nodes, two host systems, one IBM System Storage Productivity Center (SSPC)

B.one pair of SAN Volume Controller nodes, two uninterruptible power supply units, two host systems, dedicated SAN switch

C.one pair of SAN Volume Controller nodes, two uninterruptible power supply units, and one IBM System Storage Productivity Center (SSPC) or master console

D.two pairs of SAN Volume Controller nodes, four un-interruptible power supply units, and one IBM System Storage Productivity Center (SSPC) or master console

Answer: C

6. The board of directors has determined that the company must reduce costs in the IT department by reducing staff.

Select the decision maker that you would present the IBM System Storage SAN Volume Controller and related management software as a possible solution:

A.CIO or equivalent

B.Storage Administrator

C.System Administrator

D.Human Resource Consultant

Answer: A

7. After the last tropical storm, a client has decided that it needs a Business Continuity/Disaster Recovery (BC/DR) solution.

To which decision maker would you present IBM's broad range of BC/DR solutions?

- A.IT Director
- B.Network Administrator
- C.System Administrator
- D.Storage Administrator

Answer: A

8. A client needs 2 TB of disk capacity for a streaming video application.

What is the most cost effective IBM disk drive technology to meet the client's requirements?

- A.146 GB 15K RPM FC
- B.300 GB 10K RPM FC
- C.300 GB 15K RPM SAS
- D.750 GB 7.2K RPM SATA

Answer: D

9. When should a storage specialist recommend a RAID 10 implementation on an IBM System Storage DS4700?

- A.when customer I/O consists of a large number of small block random reads
- B.when customer I/O consists of a large number of small block random writes
- C.when customer I/O consists of a large number of large block sequential reads
- D.when customer I/O consists of a large number of large block sequential writes

Answer: B

10. When an Oracle database is cache hostile and has a high number of writes, which disk technology provides the best performance on the IBM System Storage DS4800?

- A.73 GB 10K RPM disk drives
- B.73 GB 15K RPM disk drives
- C.146 GB 10K RPM disk drives
- D.146 GB 15K RPM disk drives

Answer: B
