- B.Optional
- C.Excluded
- D.Mandatory
- E.Enforcement
- F.Expression Type

**Correct:B C D**

**9.Which restriction must be considered when defining the organizational structure?**

- A.Locations must be at the top of the organizational structure.
- B.Organizations must reside at the top of the organizational structure.
- C.Business partner organizations must reside in separate organizations.
- D.Organizational units must be underneath locations in the organizational structure.

**Correct:B**

**10.Which directory contains the schema for each of the services?**

- A.%ITIM\_HOME%\data\extensions\
- B.%ITIM\_HOME%\lib\remote\_services\
- C.%ITIM\_HOME%\data\remote\_resources\
- D.%ITIM\_HOME%\data\workflow\_systemprocess\

**Correct:C**

**11.Click the Exhibit button. In the exhibit, which environment variable should you set to install an agent profile using the config\_remote\_services.sh script?**

- A.DB\_BASE
- B.USER\_LIB
- C.ITIM\_HOME
- D.JAVA\_HOME

**Correct:D**

**12.Which three databases does IBM Tivoli Identity Manager (ITIM) V4.5 support? (Choose three.)**

- A.DB2
- B.Oracle
- C.Btrieve
- D.MySQL
- E.Sybase
- F.SQL Server

**Correct:A B F**

**13.IBM Tivoli Identity Manager (ITIM) comes with which default service types?**

- A.IDI DataFeed, Hosted Service, ITIM Service
- B.DSML Identity Feed, Hosted Service, ITIM Service
- C.LDIF Identity Feed, Windows NT Service, ITIM Service
- D.DSMLv2 Identity Feed, DSML Service, enRole Service

**Correct:B**

**14.What improves IBM Tivoli Identity Manager (ITIM) Server performance? (Choose three.)**

- A.the existence of a LISTDATA table
- B.increasing the max ADD threadcount
- C.adding Agent Profiles to the ITIM Server
- D.LDAP and database indexes or optimizers
- E.adding a local queue to the MQ Series Queue Manager
- F.Application Server, database, and LDAP memory settings

**Correct:A D F**

**15.Where do you set the page size for displaying links and the number of pages to be shown for multi-page result sets?**

- A.ui.properties file
- B.enRole.properties file
- C.enRoleLDAP.properties file
- D.CustomForms.properties file

**Correct:A**

**16.Which policy join directive combines the attribute values and removes the redundancies?**

- A.Union
- B.Priority
- C.Append
- D.Intersection

**Correct:A**

**17.When would you use a Service Selection Policy?**

- A.when an environment has multiple Windows2000 Servers and you need to select which server to provision the account
- B.when an environment has multiple UNIX operating systems and you need to select which operating system to provision the account
- C.when an environment allows a user to have multiple accounts on the same service and you need to be able to provision the accounts
- D.when an environment has Exchange2000 and Exchange 5.5 Servers and you need to select which

service type to provision the account

**Correct:A**

**18.Which three operations can ACIs control access to? (Choose three.)**

- A.list operations
- B.execute reports
- C.delete entity types
- D.create organizations
- E.create provisioning policy
- F.create new user interface form

**Correct:B D E**

**19.Which two user classes can be applied by the Identity Policies in the default IBM Tivoli Identity Manager (ITIM) setup? (Choose two.)**

- A.Person
- B.ePerson
- C.ITIM Group
- D.inetOrgPerson
- E.Business Partner Person

**Correct:A E**

**20.For maintenance purposes, which three log files should be reviewed periodically to identify potential problems? (Choose three.)**

- A.itim.log
- B.mq\_trace.log
- C.http\_activity.log
- D.directory server logs
- E.web server access logs
- F.Tivoli\_Identity\_Manager.log

**Correct:A D E**
